

Renata Franc, is a scientific advisor at Ivo Pilar Institute of social sciences and associate professor of Social and Political Psychology at the Centre for Croatian Studies, University of Zagreb. She received her Ph.D. in psychology from the University of Zagreb in 2001. Her research interests include social attitudes, prejudices and intergroup relations, social identity, values, youth, risky and deviant behaviour, quality of life, fear of crime and she has particular expertise in survey research.

She is the principal investigator on '*Social attitudes and intergroup relationship in Croatian society*' (2007-) and a research team member in '*The determinants of risk and deviant behaviour in national and global context*' (2007-), both funded by the Croatian Ministry of Science. She is a member of the Croatian research team for MYPLACE project (*Memory, Youth, Political Legacy And Civic Engagement 2011-2015*, EU FP7) and of Management committee for COST action IS1205 *Social psychological dynamics of historical representations in the enlarged European Union*. She was the principal investigator or member of research team on many domestic or international research projects such as '*European Social Survey*' round 5 and 4 (funded by Croatian National Foundation for Science); '*Supporting Equality in the Croatian Labour Market*', EU Progress scheme (2009-10). She is editor in chief of Croatian social science journal "*Društvena istraživanja*" (Journal of social research), and member of Editorial board of Romanian social science journal *The Journal of Community Positive Practices* (JCPP) as well as member of Advisory Editorial Board *Multidisciplinary Journal for Applied Ethics and Business Administration*. As author or coauthor she published over 30 scientific articles and two books and participated at 26 international 17 national conferences.
