# The International Handbook of Women and Poverty

## Edited by Sheila Katz & Laura Livesey

"This handbook is precisely the kind of engaged, globally minded text our students and our field desperately need. As someone who teaches social work in a global context—critically examining Western knowledge production and intersectional inequalities—I find this volume indispensable. Its strength lies not only in documenting the structural drivers of women's poverty across vastly different settings, from Gaza to rural Canada to post-Soviet Armenia, but in centering local social justice initiatives and the voices of scholars and activists from those very communities. … This book will shape how my students learn to connect theory to practice, and it will be a lasting resource for anyone committed to gender justice across borders." *Erika Gubrium, Oslo Metropolitan University, Norway*

**Almost half of the global population lives on less than $2 USD per day, and the majority these people are women and children who lack access to adequate nutrition, clean water, shelter, sanitation, and basic healthcare.**

*The International Handbook of Women and Poverty* is an innovative, collaborative project by leading experts in poverty. Scholars from around the globe explore the dynamics of women and poverty in their respective countries and highlight local social justice initiatives. Topical coverage ranges from child marriage and teenage pregnancy to violence and war to climate change. The result is a handbook that explores how poverty and inequality vary by country, region, continent, and level of development. It is an essential reference work for anyone who seeks to understand the feminization of poverty.
